

SEYMOUR DAILY REPUBLICAN

VOLUME XXVII. NO. 139

SEYMOUR, INDIANA, FRIDAY, MAY 16, 1902

PRICE TWO CENTS

Nerve Slavery

It is present-day conditions—beating burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.
Sleepless nights.
Sudden startings.
Morning languor.
Brain fog.
Inability to work or think.
Exhaustion on exertion.
Flagging appetite.
Digestion slow.
Food heavy.
Easily excited, nervous, irritable.
Strength fails.
Loss of flesh and muscular power.
Bleeding melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

A. J. PELLENS, DRUGGIST.

THE CLEANSING AND HEALING CURE FOR CATARRH

Ely's Cream Balm
Easy and pleasant to use. Contains no injurious drugs. It is quickly absorbed. Gives relief at once. It opens and cleanses the nasal passages. Allays inflammation. Heals and protects the membrane. Restores the senses of taste and smell. Largesize, 50 cent. trial size 10 cents, at druggists or by mail.

VETERANS GO HOME

Dedication of Indiana's Soldiers and Sailors Monument.

IN A BLAZE OF GLORY

The Night Program Was Made Spectacular by Fireworks and Torchlight Procession.

Vesper Services and Great Campfires Close the Dedication Exercises.

Indianapolis, May 16.—It was literally in a blaze of glory that the greatest day in Indiana's history, measured by attendance and expressions of patriotic enthusiasm, came to a close last night.

The circled space of Monument Place was ablaze with light and the vast memorial pile was revealed in new beauty beneath the rays of countless electric lights, while even the great figure of Victory surmounting the noble shaft was brought to view out of the upper gloom by brilliant searchlights. A display of fireworks on the open site of the projected federal building and a seemingly interminable torchlight procession by the

STATUE OF VICTORY.

allied German societies of the city added to the spectacular features of the night program. At Tomlinson hall and at English's opera house great "campfires" from which hundreds were turned away unable to gain admission gave the assembled thousands of veterans an opportunity for further greeting and the indulgence of reminiscence story and song. These campfires were addressed by the notables present and proved fitting climaxes of a day which will live imperishably in the annals of Hoosier patriotism. The monument whose erection has been so long watched by the veterans of the state had been formally dedicated by the Indiana department of the Grand Army of the Republic, and there was a song of gladness which found expression during these closing hours.

An interesting feature of the day's program was the vesper services conducted at the monument by the G. A. R. late yesterday afternoon and which attracted thousands again to the spot

GENERAL TORRANCE.

where earlier in the day a crowd which had overflowed Monument Place had given close attention to the formal dedication of the majestic shaft erected in memory of the soldier and sailor dead of the state. These vesper services, ritualistic in character, were conducted under the direction of General Eli Torrance of Minneapolis, commander-in-chief of the Grand Army of the Republic, and were very impressive in character.

It is estimated on a conservative basis that in excess of 80,000 visitors from over the state were attracted here during the week by the dedication exercises. Late trains last night and trains today are crowded carrying this great crowd out again, dedication day being but a pleasant memory of a notable event in the history of the state.

A LONG SESSION

Senator Fairbanks Says Congress May Not Get Through In June.

Indianapolis, May 16.—Senator Fairbanks, who arrived yesterday at noon for the dedication and left a few hours later for Washington, is in fine health and spirits. He was delighted at being able to witness even the last half of the dedication program, but it was only by chance that he was able to come, as his committee did not finish its important work until an hour before the departure of his train. He brought the regrets and good wishes of the other members of the Indiana delegation in Washington who could not get away because of the rush of important business incident to the close of the session. Senator Fairbanks is closely identified with the movement to gather funds for both the Harrison and the McKinley memorial, and he says that generous contributions are being received from throughout the country. There is so much important business before congress at this time that he does not know whether it will be possible to adjourn by the middle of June, as is now intended.

The street scenes today were a strange and marked contrast to what they were yesterday, when every downtown thoroughfare was teeming with thousands of enthusiastic, patriotic people. Today it was something like a calm following a storm, although there are still several thousand visitors in the city. But a crowd of four or five thousand is hardly noticeable now in Indianapolis, owing to the number of large conventions that are held here during the year. It is being remarked on every hand, apropos of the finish of the dedication program, that the saddest feature of it all is that it is not likely that ever again will so many Indiana veterans be gathered together. As they marched together behind the battle-scarred and tattered banners yesterday to the foot of the great monument reared in their honor, this was commented on by the thousands of people who watched and cheered them. But all honor has been paid the old soldiers throughout the entire week and the departing hosts were apparently as enthusiastic and cheerful as if their ranks were as full as when they marched to the front in the 60's, or that it was not true that it will be a few years only when their vast army will be a thing of memory.

One of the interesting figures of the dedication crowd was Samuel T. L. Miles of Bowling Green, Clay county, although he was not generally known. Miles was a member of a band at Bowling Green that was famed throughout that part of the state half a century ago. During the great debates between Lincoln and Douglas the band accompanied them on their tour and furnished music to "warm up" the crowds before the debate began. Miles, who is a distant relative of General Nelson A. Miles of the United States army, saw much of Lincoln and Douglas during these stirring times, and he is full of stories and incidents of their memorable debates. Miles has grown old since the days of the debates between Lincoln and Douglas, but he was as enthusiastic over the dedication services as any of the younger men.

Charles W. Miller of Goshen, the Republican candidate for attorney general, has been here throughout the week attending the dedication, and, like other Republican candidates, doing much electioneering. He returned a few days ago from Washington. A correspondent for a Democratic paper at Washington gave out the impression in a dispatch that Miller had indicated that President Roosevelt, with whom he lunched at the White House during his visit, was not pleased with the platform of the Indiana Republicans. Miller says this story is entirely without foundation, as he had no talk with the president regarding the platform and that he never gave the correspondent that impression. He did, however, talk with the president regarding the convention and the president, he says, was much pleased with the convention and its action.

The Democratic editors have not decided where they will hold their annual mid-summer meeting, but there is yet a prospect that it will be held in French Lick.

Cuban Inaugural

Havana, May 16.—The fetes which will mark the inauguration of the new Cuban republic will open tonight with a banquet in the Tacon theater to Governor General Wood and his staff tendered by the veterans of the two wars for Cuban independence. The inauguration ceremonies will be held in the palace at noon Tuesday. They will not be public and will be brief and formal.

Tipton's Library

Tipton, Ind., May 16.—The city council has practically decided to accept the Carnegie gift of \$10,000 for a library in Tipton, and Mayor Young appointed a committee to confer with the library board in regard to selecting a site for the building. It is the intention of the council and library board to erect the building this summer.

An Oversensitive Boy

Xenia, O., May 16.—S. S. Currie, a senior in Payne theological seminary at Wilberforce, committed suicide yesterday by hanging. His home was in Jacksonville, Fla. A fear that he could not make as good a showing as his classmates at commencement time was said to be the cause for his suicide.

MAMMOTH STRIKE

United Mine Workers Call Out Men In the Anthracite Regions.

BIGGEST IN HISTORY

The Gigantic Struggle Which Is Now On Is the Greatest Labor Struggle On Record.

One Hundred and Forty-Five Thousand Miners Respond to the Strike Order.

Hazleton, Pa., May 16.—The anthracite mine workers in convention late yesterday afternoon decided to continue the strike of the 145,000 men against the mine owners and to fight it out to the end. The matter of calling out the engineers, firemen and pump runners will be decided today. The vote to continue the suspension was as follows: Total vote cast, 811; for strike, 461; against strike, 349; majority for strike, 111. President Mitchell, however, in compliance with the rules of the United Mine Workers, announced to the public that the action of the convention was unanimous.

This step taken by the miners after practically considering the matter for two months, has wiped out the uncer-

JOHN MITCHELL.

(President United Mine Workers of America.)

ainty of the situation, and it is predicted that the most serious labor struggle in the history of the country, if not in the world, is about to begin. This view is taken by nearly every miner. It is not unlikely that the miners' fight will be carried into the bituminous coal regions and into other fields of industry. Mine workers for 18 months have been looking forward to the strike that is now upon them. They have saved their money and are considered to be in better shape today for a fight than they were in the great strike of 1900. That struggle ended in the mine owners giving the men a 10 per cent advance after a six weeks' suspension. The operators are on record as being unalterably opposed to granting the men any concessions, and they have personally informed the mine workers' leaders of that fact. The workmen fear that the present fight may mean the destruction of their organization because they believe that the mine owners are bent more on wrecking their union than they are in opposing the demands for higher wages and shorter work days.

President Mitchell's advice to the miners was for peace. He was seconded by President Fahey and Secretary Hartlein of the lower district and Secretary Dempsey of the upper territory. President Nichols of the First district was the champion of the strike advocates. Mr. Mitchell, who was the last to speak, was listened to with the greatest attention. It is said that a telegram was read from the American Federation of Labor against a permanent suspension. But the delegates would not listen, and amid considerable suppressed excitement the vote was taken. For a time it looked as though the peace advocates would win, but when delegation after delegation from the lower district, the last to be called, answered "yes," it was seen that the men who favored a fight had won. The result was received by the convention with applause which, however, was not very enthusiastic or prolonged. The men appreciated the seriousness of their decision, which no doubt dampened their ardor.

Grateful France

Washington, May 16.—M. Jules Cambon, the French ambassador, has transmitted to Secretary Hay a long telegram from his government expressing the gratitude of France for the energetic efforts of this country to relieve the suffering at Martinique.

Bryan In Cuba

Havana, May 16.—William Jennings Bryan, who is now here, is receiving considerable attention. He has been invited to a number of dinners and has many callers.

Ports Reopened

Manila, May 16.—The ports of the Island of Samar were opened to commerce yesterday.

SUFFERING ST. VINCENT

Conditions on the Island Are Akin to Martinique.

Kingstown, Island of St. Vincent, B. W. I., May 16.—No person has yet been able to approach within eight miles of the new crater of the Soufriere volcano. But, judging from what can be seen from a considerable distance, the old lake at the summit of the mountain has disappeared. The numerous fissures in the mountain's sides continue to throw out vapor, and

MOUNT SOUFRIERE, VOLCANO NOW IN ERUPTION IN ST. VINCENT.

the subterranean murmurings and tremblings indicate continued unrest. During the afternoon of Monday a dense volume of steam and smoke rose from the volcano and the whole island was covered by a peculiar mist. The inhalation of noxious vapors here is increasing the spread of sickness.

An ambulance corps from the Island of Barbados has arrived here. Starvation threatens the poorer classes of the afflicted district. Nearly every remaining negro hut in the Carib country contains decayed bodies and the stench is driving people away. Mutilated bodies are tied with ropes and dragged to the trenches, where they are buried. Sometimes bodies are cremated. The local government is feeding and sheltering about 3,000 refugees. Subscriptions for the relief of the sufferers are being raised in all the British West Indian Islands.

Miss Bertha Hoadley who was quite
sick for a week is able for duty in her
brother's store again.

Solomon Ackeret today brought in
his last load of lumber for the new
furniture factory building.

Mrs. Mary Becker and daughter
Miss Anna came home last night from
a two months visit at Terre Haute.

Dan Marsh and Samuel Prebble of
Versailles, were in town today on
their way home from Indianapolis.

Miss Pauline Himler, of Cincinnati,
came here Monday to see her sister,
Mrs. John Loertz, who is seriously ill.

Miss Lizzie Hackendorf, of Lincn,
who has visited friends here since
Monday went to Vernon last evening.

George W. Rider and his sister Miss
Laura, of Crothersville, came here
this morning to visit Mrs. W. M.
Coryell.

D. B. Robertson came home this
morning from Indianapolis, from a
visit to his mother-in-law, Mrs.
Matthews.

Chris Little who was here to spend
a few days with his family has return-
ed to Martinsville. He has charge of
Ebner's ice plant.

Mrs. Belle Guthridge left for her
home today at Mt. Carmel, Illinois,
from a visit with her brother, Jerome
Boyles and family.

Mrs. F. H. Tormohler, of Anderson,
whose sickness has been previously
reported, was a little better yesterday
when her father left there.

Lowry Foster, R. R. Short, John
Fox, and A. A. Conner, of Redding
township, were among those who re-
turned from Indianapolis today.

Mrs. Fannie Collins, of Charleston,
West Virginia, who was called here
on account of the death of her brother
Albert Meyers, left for her home yester-
day afternoon.

Sam Elswick and wife and son,
James Hamer, Walter Crawford, Miss
Stears and Will Husted were among
the number who accompanied the re-
mains of George Crawford to Bedford
today on No. 7.

How's This?

We offer One Hundred Dollars Re-
ward for any case of catarrh that can-
not be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Props.,
Toledo, Ohio.

We, the undersigned, have known
F. J. Cheney for the last fifteen years,
and believe him perfectly honorable
in all business transactions, and finan-
cially able to carry out any obligation
made by their firm.

WEST & TRUAX, Wholesale Druggists,
Toledo, Ohio.

WALDING, KINNAN & MARVIN, Whole-
sale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken inter-
nally, acting directly upon the blood
and mucous surfaces of the system.
Price, 75c. per bottle. Sold by all
druggists. Testimonials free.

Hall's Family Pills are the best.

BUSINESS NOTES.

Sol Davis was a passenger west on
No. 7 today.

W. B. Russell made a business trip
to Louisville today.

Mr. Houseman, of the Hygiene Mill,
was a passenger south today on busi-
ness.

The Travis Carter company is haul-
ing some fine lumber from Waymans-
ville.

W. L. Kasting has made 85,000
bricks to date for the third kiln burn-
ed this season.

John M. Lewis is having his resi-
dence lot on Indianapolis avenue
filled up and graded.

Robert H. Hall, of the Seymour
Planing Mill, went to Holton today
to look after a new contract.

William Reynolds and Charles
Stearnes, of Rivervale, were here on
business with the Travis Carter Co.
today.

E. M. Young is moving the building
off the lot next to the Godfrey building
and will put up a new building there
this season.

George Marquart one of the leading
farmers about Jonesville was in town
today and bought a new cultivator of
the Union Hardware Company.

Another Graft.

A smooth "grafter" has been work-
ing many of the old soldiers for the
past few days. He calls and gets a
few points on the soldier's biography
and then fixes up a nice little sketch
which he says is to be published. Then
he attempts to get the soldier's signa-
ture ostensibly as a certificate of the
correctness of the biography, but af-
terwards proves to be a subscription
for two volumes of books, price \$9.
The man doesn't exactly work a swin-
dle, but he deceives by implication.
It would be well to read everything in
the contract before signing.—Ex.

Practical Proof.

A practical test of the value of news-
paper advertising was made recently
by the storekeepers at Asbury Park.
Each merchant more than doubled his
advertising space and used it to "boom"
the trade of a particular day. On
that day the business of the stores was
enormously increased, a few leading
merchants taking in \$10,000 more than
on any other day. Asbury Park is a
small place, but people are the same
the country over.—Philadelphia Rec-
ord.

The Sparks Show.

The Sparks show arrived this morn-
ing and pitched their tents on the show
grounds on west Second street. The
Show does not make a street parade,
but instead gives a balloon ascension
at 6:30 p. m. from the show grounds.
They claim to put extra good value
into their performances. The show
has been in the south where it has had
a successful tour and it is now making
a trip in the north. Performance this
evening. Dont miss the balloon as-
cension.

Shudders at His Past.

"I recall now with horror," says
Mail Carrier Burnett Mann, of Le-
vauna, Ohio, "my three years of suf-
fering from kidney trouble. I was
hardly ever free from dull aches or
acute pains in my back. To stoop or
lift mail sacks made me groan. I felt
tired, worn out, about ready to give
up, when I began to use Electric Bit-
ters, but six bottles completely cured
me and made me feel like a new man."
They're unrivaled to regulate Stomach,
Liver, Kidneys and Bowels. Perfect
satisfaction guaranteed by W. F.
Peter, Druggist. Only 50 cents.

The Bedford Daily and Weekly
Democrat will be sold at private sale
on June 13th, by the Administratrix
of the estate of John Johnson, Jr.,
Mrs. Ella Johnson, his widow. The
plant inventoried about \$2,500, and
the plant and business was appraised
at \$4,500.

I live and let my brethren live
With all that's good with me.
Unto the poor some cash I give,
The balance I give Rocky Mount-
ain tea. Ask your druggist.

By special arrangement the Duke of
Argyll contributes to the May 15 issue
of the Youth's Companion on the ap-
proaching coronation of King Edward
VII. He gives much interesting his-
tory relative to coronation, together
with privileges enjoyed by certain
families at the ceremony. He seems
to have in mind what England and the
United States have in common in the
closing lines of his article which read:
"For both kings and presidents the
real crown is the love of the people;
the real anointing is the love of God;
the real scepter is the respect of those
of their day; the real orb of empire is
the verdict of history on their life and
times."

Fast Friends.

RUSHVILLE, IND.
MESSRS. ELY BROS.:—I have been a
great sufferer from catarrh and hay
fever and tried many things, but found
no permanent relief until I found it in
Ely's Cream Balm about eight years
ago, and we have been fast friends
ever since. (Rev.) R. M. BENTLEY.
Prove its value by investing 10 cents
in trial size of Ely's Cream Balm.
Druggists supply it and we mail it.
Full size 50 cents.
ELY BROS., 56 Warren St., New
York.

CURIOUS COINCIDENCES.

Remarkable Story of the Falling
of Two Trees.

Mrs. B. A. Ruddick has handed us
an old copy of a Louisville paper con-
taining an account of the falling of
two apple trees on the days when two
of her uncles John F. and G. W. Carr
died. The account is dated from Mit-
chell, Ind., June 14, 1892 and reads as
follows:

"About sixty-four years ago, Thomas
Carr, living near Mecora, in Jackson
county, set out an apple tree orchard
on his farm, about one-half mile south
west of Wedderville and having two
apple trees left he gave them to his
sons, John F. and G. W. Carr. The
boys set their trees out along the fence
near the orchard and they both grew
well. John was the first to die and on
the day he died his tree fell. G. W.
lived to be an old man, became known
as a Colonel in the army, was chair-
man of the convention that formed the
present constitution of Indiana, and
died only a few days ago at Craw-
fordsville. It is a wonderful coinci-
dence that his tree also fell on the same
day that he died.

The May "American Boy."

This popular boys' magazine for
May is a handsome production, print-
ed as it is on heavy paper and with
beautiful pictures on every page. The
principal stories in this issue are: "A
Bond of Honor," by Charlotte Cady;
"How the Vein was Found," by Roe
L. Hendrick; "Jerry," by Mary Ham-
ilton Cochrane; "A Position on the
Staff," by Frank H. Sweet.

Some of the special articles are:
"The Mother of the Confederacy";
"The Last of the Mohicans"; "Perhaps
Another Edison"; Stuart Robson as a
Boy"; "The Boys' Club of the Church
Club of Philadelphia"; "John D.
Rockefeller, Jr., on Religion and
Business." There is a whole page of
humorous pictures and reading matter
appropriate to the time of the year en-
titled "Just for Fun."

The subscription price is \$1.00 per
annum, and it is published by the
Sprague Publishing Company, Detroit,
Mich.

Old Soldier's Experience.

M. M. Austin, a civil war veteran,
of Winchester, Indiana, writes: "My
wife was sick a long time in spite of
good doctors' treatment, but was
wholly cured by Dr. King's New Life
Pills, which worked wonders for her
health." They always do. Try them.

Profit Sharing!

The Cincinnati Enquirer

sells alone

\$97,000

To be distributed to such of its readers who care to engage in an intellectual and profitable study. A contest that will familiarize them with the population, voting power and government of the State of Ohio.

The Problem is,

What will be the Total Vote in Ohio for Secretary of State at the general State election, to be held on Tuesday, November 4, 1902.

\$12,000 will be presented to one making the nearest correct estimate. \$12,000 additional if an exact correct estimate is made, making a total of \$24,000 for a correct estimate.

An additional sum of \$10,000 will be given by the Daily Enquirer for an exact correct estimate if received on or before July 31, 1902, provided such estimate is made by a monthly subscriber to the Daily Enquirer at time of making such estimate.

There are 4,187 cash prizes in all, several of which equal a life-time subscription.

\$1.00 for a year's subscription to the Weekly Enquirer entitles subscriber to one estimate.

\$1.50 for a monthly subscription to Daily Enquirer entitles subscriber to one estimate.

50 cents, without any subscription privilege, entitles subscribers to additional estimates, at rate of 50c for each estimate.

Do not make any estimate until you thoroughly understand this Profit-Sharing Plan of the Cincinnati Enquirer. All estimates must be made on blanks prepared for the purpose, and in conformity with rules and regulations made and provided.

Send for circulars, blanks, etc., to

PLAN NOW FOR COLORADO.

THE BURLINGTON'S EXTENSIVE
SCHEME OF SUMMER TOURS.

The Burlington Route makes the most attractive excursion rates to Colorado Resorts than have ever been made. For long periods of the summer we make such remarkably low first class round trip rates to Denver, Colorado Springs and Manitou, as \$21.00 from St. Louis, \$15.00 from Kansas City, \$25.00 from Chicago, good all summer; at other periods, only one fare plus \$2.00 round trip.

CHEAP TO PACIFIC COAST, TOO.

May 17th to June 8th, August 2d to 8th. Round trip good 60 days, variable routes; from St. Louis \$47.50, from Chicago \$50.00, Missouri River \$45.00; all lower than the one-way rate; only \$11.00 more between Frisco and Portland; first class, good in chair cars (seats free), standard sleepers or Through Tourist Sleeper Excursions. Chief Coast route, the Burlington to Denver, through scenic Colorado, Salt Lake.

COOL MINNESOTA.

10,000 lakes; scores of the coolest and best summer localities in the country; frequent periods of low summer rates.

Apply to nearest ticket agent, or write us of your proposed trip, whether to Colorado, Pacific Coast, Yellowstone Park, Minnesota, and let us advise you least cost and assist you.

Reduced Rates to Indianapolis via Pennsylvania Lines.

Excursion tickets to Indianapolis, account I. O. O. F. Grand Lodge and Rebekah Assembly of Indiana, will be sold at ticket stations on the Pennsylvania Lines, as follows: May 15th tickets will be sold only for trains leaving selling station after 12:00 o'clock noon; May 19th and 20th, tickets will be sold for all trains, and on May 21st, tickets will be sold for all trains, but only from stations within 75 miles of Indianapolis. For further information apply to ticket agents of Pennsylvania Lines.

St. Paul or Minneapolis and Return \$20.00.

The B. & O. S. W. R. R. will sell tickets to St. Paul and Minneapolis, Minn., and return May 17th, 18th and 19th and morning trains May 20th account of the National Baptist Anniversary. Tickets good to return May 21st and may be extended until June 30th by depositing ticket with joint agent at St. Paul or Minneapolis. For full particulars call on or address C. C. FREY, Agent.

Harrisburg, Pa. and Return \$15.75.

The B. & O. S. W. R. R. will sell tickets to Harrisburg, Pa., and return May 15th to 20th inclusive account of the German Baptist Brethren Conference. Tickets good to return June 2nd, 1902, and may be extended until June 30th by depositing with ticket agent at Harrisburg. For full particulars call on or address C. C. FREY, Agent.

THE MEADOW ORCHID

WHY THE RUSSIAN PEOPLE CALL IT
"THE CUCKOO'S TEARS."

A Legend of the Land of the Cuckoo That Deals With Magic, Love and Happiness and One Result of the Fatal Feminine Tongue.

One warm Sunday afternoon the village maidens assembled to bathe in the river. They took off their kerchiefs and their coronet headresses, seated themselves on the bank to cool off and began to gossip. One maiden alone sat silent, Froysa, an orphan, poor, but beautiful, with fair skin and eyes as blue as the gentian, which the Russians call "the flight of the falcon." So the other girls began to tease her: "Have you no dearly beloved friend, Froysa? Who is he, where is he? Is he handsome, is he rich?"

"Where should a poor girl get a rich and handsome young lover? Yonder adder is my husband."

No sooner had she said this than all the maidens cried, with one accord, "The adder!" and took to their heels. And upon her kerchief, which Froysa had thrown upon the grass, behold, a huge black adder lay coiled. She cried out in fear. But the adder beat its tail upon the ground and was transformed into a wonderfully handsome young man. There he stood before her, with a golden cap upon his flowing curls, his eyes flashing fire, and honeyed words fell from his lips. And he said to her: "Did you mean it when you declared that you were ready to marry the adder?"

She knew not what reply to make, but gazed at him and thought to herself, "Whence came such a wise and handsome youth?" And he, divining her thoughts, replied to them, "I am no common man, but the czar of the waters, and my empire is close at hand in a deep pool on golden sands."

And he read in her eyes that she consented to go with him. Then he grasped her with his powerful hand, and together they sank down into the deep realm of the waters.

Great was Froysa's happiness. She could not believe in it. He was so good, so wise; she had never seen such people, and there is none such anywhere as the czar of the waters. But Froysa was foolish. Seven years did she dwell with him in the deep pool in his palace of crystal, and the seven years passed as one day, and there need not have been any end to her bliss. A girl and a boy had been born to them. Then, all at once, without any cause, she became sad, longed for the earth, to behold her native hamlet and her friends once more. So he let her go, with the children, for three days after having exacted a promise that neither she nor the children, either by word or by hint, should reveal the name of her husband or where she lived. And all this she promised, with fearful oaths. Then her husband escorted her to the dam. At the end of three days she was to come to the same spot and cry "Cuckoo!" three, whereupon he would swim at once to meet her.

She kept her oath, but her friends coaxed and questioned the children. The boy to all queries replied simply, "I don't know." But the girl told everything. This was all the envious gossips wanted. They ran and told all to their husbands and brothers, who immediately ran to the dam and uttered the magic words. And when the czar appeared they beat him to death. But before he died he contrived to say to Froysa: "I have to thank thee, my dear wife, that I am now come to my death through thee and my daughter. Henceforth thy thou ever as a gray cuckoo and repeat thou ever my call, 'Cuckoo!' In sadness of heart from early spring until St. Peter's day [St. Peter's day, June 29 (July 12, O. S.)], and from that day forth may every bird, both great and small, beat thee and pursue thee. And mayest thou, my daughter, my betrayer, be turned into a nettle bush, and may that weed, the fiery, forever burn thee eyes wherever thou mayest be, that thou mayest weep forever, remembering thy father's death. But to my loyal son, who kept his father's command, I make this bequest: That he shall be the bird beloved which dwells and sings in gardens and amid shady groves for the joy of happy people, for the consolation of those who weep, the nightingale."

And from that day forth the Russian people have called the meadow orchid "the cuckoo's tears." It is also known as "the cuckoo's slippers."—Isabel F. Haggood in New York Post.

A Way Out.
A small girl told a falsehood. Her mother, with great dignity, led the youthful offender to the library and, sitting down beside her, said: "You know, Katharine, grandpa has gone to heaven and papa has gone to heaven, but if you tell untruths you cannot go to heaven with them. You will have to go to the other place."

The little maiden looked very grave for a moment and said, "Say a swear word, mamma, and come to the other place too."—New York Tribune.

The Better Choice.
"Ze Miss Millions, it is said, spends thousands of dollars on ze bonnets alone, my dear count," observed the baron. "She is ze one for you."

"No, my dear baron," was the reply. "I will make ze proposal to her milliner."—Judge.

Exclusiveness.
"Pauline is very exclusive, isn't she?"

"Oh, yes; quite. She never introduces an eligible man to any other girl."—London King.

Do not neglect to keep your boots polished. You can always shine at one end, if you cannot at the other.

Doomed Either Way.
Doctor Mr. Tidlington, your wife will risk her life if she attends that wedding so soon after having the grip.

Mr. Tidlington—Well, doctor, she'll die if she has to miss it.—Life.

When a man really needs a licking, nothing does him more good than to get it.—Acheson Globe.

LIGHTNING FLASHES.

HOW THEY ARE EVOLVED AND THE ENERGY THEY POSSESS.

Inhabitants of Compactly Built Cities Have Little Cause to Fear These Mysterious and Destructive Balls From the Clouds.

Without doubt lightning was the first electrical phenomenon that was observed by human beings. To this day it remains the least known and least understood of natural electrical manifestations except, perhaps, the aurora.

There is a vast deal of popular misconception concerning the danger of lightning and the nature of it. The lightning flash is a discharge from a cloud at a high potential with reference to the earth. When the atmosphere is charged with water vapor and some eddy or current in its colder upper strata is deflected downward, causing condensation, exceedingly minute drops of water are formed, each bearing an electrical charge. The consolidation of these into larger drops results in a very great increment of the potential of the charge since the capacity of the drop varies with its diameter and the volume of the drop with the cube of the diameter.

The consequence of this is that it takes, for example, eight drops consolidated to make one of twice the diameter of the constituent drops, and the charge on the surface of the consolidated drop will be four times as great as that upon the surfaces of its elements. In this way, as the small water particles unite to form drops which fall as rain, the potential of the charge they carry increases until it attains enormous values, and the lightning flash leaps to the earth, which may be regarded simply as a body of very great electrostatic capacity. The discharge, which is called lightning, is apt to be more or less destructive, although the energy of an individual flash is perhaps not very great. Often the conditions are such that the discharge takes on an oscillating character, producing violent surges of current. No very accurate measurements have been made upon the current involved, but it is taken to be of the order of 1,000 to 5,000 amperes. The electro motive force necessary to cause a flash a mile long is probably several million volts, and of course the power of the flash measured in watts is very great, but its duration is correspondingly short.

Protection of property and life from lightning flashes has been a subject that has attracted the attention of natural philosophers since Franklin sent up his historic kite. The net result of more than a century of experiment is that the conditions are such that the discharge takes on an oscillating character, producing violent surges of current. No very accurate measurements have been made upon the current involved, but it is taken to be of the order of 1,000 to 5,000 amperes. The electro motive force necessary to cause a flash a mile long is probably several million volts, and of course the power of the flash measured in watts is very great, but its duration is correspondingly short.

The electro motive force necessary to cause a flash a mile long is probably several million volts, and of course the power of the flash measured in watts is very great, but its duration is correspondingly short.

Protection of property and life from lightning flashes has been a subject that has attracted the attention of natural philosophers since Franklin sent up his historic kite. The net result of more than a century of experiment is that the conditions are such that the discharge takes on an oscillating character, producing violent surges of current. No very accurate measurements have been made upon the current involved, but it is taken to be of the order of 1,000 to 5,000 amperes. The electro motive force necessary to cause a flash a mile long is probably several million volts, and of course the power of the flash measured in watts is very great, but its duration is correspondingly short.

POPULAR SCIENCE.

Mercury's year is only 88 days, that of Venus 225 days and of Mars 687 days.

Cumulus, or thunder clouds, rarely rise over two miles. Seven miles is the outside height for any cloud.

The edge of the moon is so broken by peaks, ridges and valleys that the length of totality during a solar eclipse is affected by them.

The sun's heat raises from the earth 87,000,000 tons of water a minute. To do the same work artificially a cube of coal 200 miles deep, wide and high would have to be burned every second.

The archaic, wasteful "beehive" oven process of making charcoal has been superseded in many parts of Germany by modern methods which save all the ammonia, gas, tar and other products of the wood.

A human body contains some of the small things of nature. The blood, for example, is a colorless liquid in which little red globules are floating. Every drop of it contains about a million of the globules, and they are susceptible of division into smaller globules still.

The Coffee Heart.
The largest part of the coffee grown in the world is consumed in the United States, and some of our life insurance societies are beginning to realize how its excessive use increases the risks of life. Its effect is in shortening the long beat of the heart, and medical examiners for insurance companies have added the term "coffee heart" to their regular classification of the functional derangements of that organ. These physicians advise that the use of coffee be limited to not more than two cups a day. Coffee tasters, they say, are plentiful and are as much tied to their cups as the whisky toper. The effect of the coffee upon the heart is more lasting and consequently worse than that of liquor.—Detroit Free Press.

All Eyes on Texas

Great is Texas. Her vast cotton crops and marvellous oil discoveries amaze the world. Now follows the startling statement of the wonderful work at Cisco, Texas, of Dr. King's New Discovery for Consumption. "My wife contracted a severe lung trouble," writes editor J. J. Eager, "which caused a most obstinate cough and finally resulted in profuse hemorrhages, but she has been completely cured by Dr. King's New Discovery." It is positively guaranteed for coughs, colds and all throat and lung troubles. 50c and \$1.00. Trial bottles free at W. F. Peter's Drug Store.

AN ANECDOTE OF WHITMAN.

How the Poet Was Trying to Cheer Up a Friendless Boy.
One day I was stopped on Washington street, says J. T. Trowbridge in The Atlantic, by a friend who made this startling announcement: "Walt Whitman is in town. I have just seen him!" When I asked where, he replied: "At the stereotype foundry, just around the corner. Come along. I'll take you to him." The author of "Leaves of Grass" had loomed so large in my imagination as to seem almost superhuman, and I was filled with some such feeling of wonder and astonishment as I had been invited to meet Socrates or King Solomon.

We found a large, gray haired and gray bearded, plainly dressed man, reading proof sheets at a desk in a little dingy office, with a lank, unwholesome looking lad at his elbow listlessly watching him. The man was Whitman, and the proofs were those of his new edition. There was a scarcity of chairs, and Whitman, rising to receive us, offered me his, but we all remained standing except the sickly looking lad, who kept his seat until Whitman turned to him and said: "You'd better go now. I'll see you this evening." After he had gone out Whitman explained: "He is a friendless boy I found at my boarding place. I am trying to cheer him up and strengthen him with my magnetism," a practical but curiously prosaic illustration of these powerful lines in the early poems:

To any one dying thither I speed and twist the knob of the door.
I seize the descending man; I raise him with resistless will.
Every room of the house do I fill with an armed force, lovers of one, banners of graves.

It Saved His Leg.
P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25 cents. Sold by W. F. Peter, Druggist.

Cheap Rates via Southern Indiana

Railway.

One-way colonist rates to Arizona, California, Colorado, Nevada, New Mexico, Texas, and Utah.

Round trip rates to Los Angeles, San Francisco, Portland, Denver, Pueblo, Colorado Springs and Salt Lake City.

Home Seekers excursion tickets will be sold on every first and third Tuesday of each month to points in Arizona, Arkansas, California, Colorado, Idaho, Indian Territory, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin and Wyoming.

Dark Faced Type denotes time from 12:00 noon to 12:00 midnight; light faced, from 12:00 midnight to 12:00 noon.

Compare Sleeping Car and Coach Rates. No. 6 and 3 between Louisville and Chicago; Buffet Parlor Cars and Coaches between Chicago and St. Louis.
